

# INITIAL RESPONSE & SAFETY

## When Safety Matters

### UETDRRF06 Perform Rescue from a Live Panel

#### Cost per Person

Please contact our office for group pricing.

#### UETDRRF06 Perform Rescue from a Live Panel

#### Unit being delivered

The Low Voltage Panel Rescue course is essential if you are conducting live work or working with live switchboards. The course covers the performance of rescue procedures from a live Low Voltage (LV) apparatus, not including overhead lines and underground cables in the workplace.

It specifies the mandatory requirements of rescue from a live LV panel and how they apply in the context of transmission, distribution or rail work functions. It encompasses responsibilities for, health, safety and risk management processes at all operative levels and adherence to safety practices as part of the normal way of doing work.

Low voltage rescue comprises responsive operations that involve the saving of life, or prevention of injury during an incident or dangerous situation.

The following unit(s) will be awarded to successful participants in this course. The certificate will be issued by Allens Training Pty Ltd - RTO 90909.

#### UETDRRF06 Perform Rescue from a Live Panel

#### Entry Conditions

- Prerequisite – This course has a prerequisite of HLTAID001 Provide cardiopulmonary resuscitation (Evidence of completion and currency is required).
- Physical fitness – Participants must have the physical capacity to complete a practical demonstration of a simulated LV panel rescue.

#### Assessment Requirements

Industry standards for refresher training vary from state to state. Most states recommend refresher training for this unit every 12 months. Individuals undertaking this course will be expected to complete both written and practical assessment tasks.

#### Course Delivery

This course will be delivered onsite in your workplace.
