PUAFIR210 PREVENT INJURY

Unit being delivered

This unit involves the skills and knowledge required to identify and avoid workplace hazards and risks, to maintain personal safety and to report identified issues to supervisors and team members. It is designed as an introduction to safe work practices and is specifically relevant to a workplace requiring personnel to be involved in incidents, prescribed burns and/or operational aspects of emergency management. It includes identifying, implementing and monitoring effectiveness of workplace hazards and risk control procedures.

The unit applies to personnel who work as a member of a team. Work at this level is undertaken under direct supervision and instruction.

The fire sector is those sections of government departments, statutory authorities or organisations that have responsibility under jurisdictional arrangements for the delivery of firefighting and fire management services.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

The following unit(s) will be awarded to successful participants in this course. The certificate will be issued by Allens Training Pty Ltd - RTO 90909. **PUAFIR210 PREVENT INJURY**

Entry Conditions

Participants must have the physical capacity to complete all practical demonstrations. This includes wearing suitable identification, assisting occupants and using communications systems.

Assessment Requirements

Individuals undertaking this course will be expected to complete both written and practical assessment tasks.

Course Delivery

This course will be delivered onsite in your workplace. **PUAFIR210 PREVENT INJURY**
