

# INITIAL RESPONSE & SAFETY

## When Safety Matters

### HLTAID007 Provide Advanced Resuscitation

**Cost per Person**

Please contact our office for group pricing.

**HLTAID007 Provide Advanced Resuscitation**

**Unit being delivered**

Providing effective, lifesaving first aid interventions requires instruction and practical training. This is especially true where it relates to potentially fatal illnesses and injuries, such as those that require cardiopulmonary resuscitation (CPR). As with any training, it is beneficial if it occurs before being confronted with a real-life situation. This Advanced Resuscitation course is delivered in line with the Australian Resuscitation Council guidelines and applies to all workers or members of the community who may be required to provide CPR and oxygen in the event of an emergency.

Participants attending this course will develop the skills, knowledge and confidence required to provide an emergency response and use specialised equipment for those in need of resuscitation, in a range of complex situations, including community and workplace settings.

Participants will also learn how to monitor and handover the casualty to medical professionals for further care, and how to maintain resuscitation and oxygen equipment.

The following unit(s) will be awarded to successful participants in this course. The certificate will be issued by Allens Training Pty Ltd - RTO 90909.

- **HLTAID007 Provide Advanced Resuscitation**
- **HLTAID001 Provide cardiopulmonary resuscitation**

**Entry Conditions**

Participants must have the physical capacity to perform 2 minutes of uninterrupted CPR on the floor.

**Assessment Requirements**

Individuals undertaking this course will be expected to complete both written and practical assessment tasks.

**Course Delivery**

This course will be delivered onsite in your workplace. **HLTAID007 Provide Advanced Resuscitation**
